Dear Sir:

In a teleconference on January 13, 1999, the Examiner and the undersigned discussed the nature of the pending claims and jointly concluded that in the present circumstances, MPEP 201.06(a) controls the appropriate course of action:

"If the claims presented by amendment in a 37 C.F.R. 1.60 application are directed to matter shown and described in the prior nonprovisional application but not substantially embraced in the statement of invention or claims originally presented, the applicant shall file a supplemental oath or declaration under 37 C.F.R. 1.67 as promptly as possible."

The substance of this directive is also found at 37 C.F.R. 1.67. Accordingly, pursuant to this understanding reached with the Examiner, applicant has prepared and hereby submits the attached supplemental oath and declaration signed by the sole inventor in this case. A fee in the amount of \$65 has been included pursuant to the provisions of 37 C.F.R. 116(e).
